The diagram illustrates a system architecture involving three distinct groups of users (A, D, and G) and three corresponding databases (B, C, E, F, H, and I). Group A (labeled 204) includes VETERINARIAN, OWNER, BREEDER, OPERATOR, AGENT, and RESEARCHER roles. Group D (labeled 203) includes similar roles. Group G (labeled 202) includes VETERINARIAN, OWNER, BREEDER, OPERATOR, AGENT, and RESEARCHER roles. The databases are categorized into PHENOTYPE DB (B, E, H) and GENOTYPE DB (C, F, I).
